

OPPORTUNITIES

Thank you for your interest in becoming a member of the PA community. Every member of Pulaski Academy's faculty and staff is dedicated to furthering our mission and nurturing our students so that they are prepared for college and for life.

Working at PA is not simply a career, it is also a passion. It requires a wholehearted belief in the importance of developing young minds in a positive environment. Pulaski Academy welcomes applications from interested candidates even if a specific position is not listed below. Applications will be kept on file for one year and referenced as openings materialize.

Please contact careers@pulaskiacademy.org for questions regarding the application process.

As part of the PA community, teachers find themselves surrounded by supportive colleagues and deeply involved in community life. They work closely with parents and fellow educators to address many facets of their students' education. We seek team members with a strong grounding in their disciplines who are also open to new ideas and pedagogical techniques.

Our faculty members are distinguished by their uncommon dedication to teaching, in and out of the classroom. Faculty are supported through both our mentor program and professional development opportunities. We encourage professional growth through one-to-one guidance, vertical and horizontal teaming, peer observations, motivational speakers and outside travel. Our students, screened through a selective admission process, have high aspirations and truly want to learn.
